GREEN SHEET

Environmental/Climate/Energy/Sustainment
Conferences, Newsletters, Reports, Training, Contracts, & Georgia Chapters

May - June, 2015

Some Sample Conferences

- May 5-6, 2015, TCEQ, Texas Commission on Environmental Quality, Environmental Trade Fair & Conference, Austin, TX, http://www.tceqevents.com/TradeFair/

- Jun 11-12, 2015, ICCC-10, Tenth International Conference on Climate Change, Washington, DC, http://climateconference.heartland.org/

May - June, 2015

The Green Sheet

Environmental/Climate/Energy/Sustainment
Conferences, Newsletters, Reports, Training, Contracts, & Georgia Chapters

Updates Highlighted in Yellow

Environmental/Climate/Energy Conferences

- May 5-6, 2015, TCEQ, Texas Commission on Environmental Quality, Environmental Trade Fair & Conference, Austin, TX, “considered by many to be one of the best in the country.” [http://www.tcegevents.com/TradeFair/]
- May 12-14, 2015, EPRI, Electric Power Research Institute, Environmental Vision-An International Electricity Sector Conference, focused on critical environmental and sustainability challenges, Crystal City, VA. [http://www.awma.org/events-webinars/upcoming-events/environmental-vision/welcome]
- May 17-21, 2015, ASCE-EWRI, American Society of Civil Engineers-Environmental & Water Resources Institute, World Environmental & Water Resources Congress, Austin, TX. [http://www.ewricongress.org/]
- Jun 11-12, 2015, ICCC-10, Tenth International Conference on Climate Change, Washington, DC, [http://climateconference.heartland.org/]
- Jun 18-21, 2015, ACEC, American Council of Engineering Companies, 2015 Georgia Engineers Summer Conference, Brasstown Valley, GA. [http://campaign.r20.constantcontact.com/render?ca=47b58573-4c6f-4e99-9e6b-10d8900a74d3&c=dd616f10-d5f9-11e3-b7c7-d4ae52843aae&ch=ddeb0e00-d5f9-11e3-b7f5-d4ae52843aae]
- Sep 16-18, 2015, **EIA**, Environmental Information Assn, Carolinas Fall Conference, Myrtle Beach, SC, [http://eia-usa.org/meetinginfo.php](http://eia-usa.org/meetinginfo.php)
- Sep 29-30, 2015, **AIPG-GA**, American Institute of Professional Geologists, Georgia, 6th Conference: Innovative Environmental Assessment and Remediation Technologies, Kennesaw, GA. Contact Yo Sumartojo at sumarto@bellsouth.net, Web site TBA.
2015 Conferences

2016 Conferences

- **April 11-14, 2016**, NAEP, National Association of Environmental Professionals, Annual Conference, Chicago, IL, http://www.naep.org/2016-conference

- **May 23-26, 2016**, Battelle 10th International Conference on Remediation of Chlorinated and Recalcitrant Compounds, Monterey, CA. Web site TBA.

More Conferences and events

- Other US environmental conferences, forums, exhibitions and further details. See https://www.fedcenter.gov/calendar/conferences/
- Other international environmental conferences, see http://www.wikicfp.com/cfp/call?conference=environment
- Other Climate Change international conferences and events, see http://climate-l.iiisd.org/events/

Environmental Training

- EPA (Live) Environmental Webcast Events.. CLU-IN Internet seminars. See http://clu-in.org/training/#upcoming
- SERDP and ESTCP webinar series on Environmental Restoration and other webinars see http://www.serdp-estcp.org/Tools-and-Training/Webinar-Series

Environmental Contracts & Grants

- Environmental Grants, various sources. See http://www.grants.gov/web/grants/search-grants.html
- FedCenter.gov. Provides sources and procedures for a variety of environmental grants. https://www.fedcenter.gov/opportunities/grants/#cleanup
- USAF Environmental Cleanup Projects, A new on-line system documents the cleanup status of sites at over 170 active and closed Air Force installations in the continental United States. It is available to the public at http://afsec.publicadmin-record.us.af.mil.

Environmental Reports/Publications

- EPA ChemView, an updated database developed in 2013 of chemicals regulated under TSCA. http://www.epa.gov/opptintr/existingchemicals/chemview/index.html

Environmental Newsletters

- Army Regional Environmental and Energy Office (REEO). Newsletters. Contact Regulatory Affairs Specialist for the ten regional offices to subscribe at http://www.asaie.army.mil/Public/ESOH/REEO/. For EPA Regions 8, 9 & 10 contact Nancy Reese at nancy.l.reese2.ctr@mail.mil
- NRDC, Natural Resources Defense Council, This Week, http://www.nrdconline.org/site/MessageViewer?pw_id=4321&dlv_id=59761&em_id=64741.0

Environmental Related Organizations - Metro Atlanta, Georgia Chapters

- AEG, Association of Environmental & Engineering Geologists. Contact Matthew Howe, matthew.r.howe@gmail.com, (678) 637-7060, http://www.aegweb.org/sections-chapters/southeastern
- AIChe, American Institute of Chemical Engineers. Contact Krupa Patel, (krupa3@gmail.com), (404) 786 6117, http://www.atl-aiche.org/Login.html
- ASCE, American Society of Civil Engineers. Contact Rebecca Shelton, Rebecca.Shelton@gwinnettcounty.com (678) 376-7033, http://www.ascega.org/
- ASCE EWRG, Environmental & Water Resources Group of ASCE. Contact Rasheed Ahmad, rahmad@atlantaga.gov, 404-546-3313, http://www.ascega.org/environmental-water-resources/
- ASSE, American Society of Safety Engineers. Contact David Brani, dbrani@atslab.com, (770) 423-1400, http://georgia.asse.org
- GAWP, Georgia Association of Water Professionals. Numerous different professional committees. Contact Ashley Simone, asimore@gawp.org, (678) 540-7326, http://www.gawp.org/
- GBA, Georgia Brownfields Association, http://georgiabrownfield.org/, or contact Kelly Andrews, kelly@hlstrategy.com
- GGWA, Georgia Ground Water Association, Contact Greg Cherry, gccherry@usgs.gov, (678) 924-6632, http://www.gawp.org/group/ggwa/
- SAME, Society of American Military Engineers. Contact Beth Harris, bharris@unitedconsulting.com, (770) 582-2829, http://sameatlantapost.org

Groundwater Remediation
Aggressive, Rapid, Cost-Effective, Guaranteed-Fixed Price Site Closures

Remediate Groundwater Sites Impacted with:
- Fuels (gasoline, diesel, jet fuel)
- Solvents (chlorinated hydrocarbons: TCE, PCE, DCE)
- Highly viscous hydrocarbons (Creosote, Coal Tar, Pine Tar, No. 6 fuel oil)

EcoVac’s Innovative Solutions Include:
- Enhanced fluid recovery (EFR®), a mobile, vacuum-enhanced dual-phase/multi-phase extraction (DPE/MPE) for the removal of all VOC phases (i.e. separate, adsorbed, dissolved, and vapor phases) from the entire soil column utilizing a single remedial process. This process provides an expedited and mobile cost-effective-efficient solution for NAPL and dissolved phase plumes.
- Remediation of NAPL (LNAPL and DNAPL-TCE/PCE) utilizing our patented SURFAC® process, which combines the elements of specially formulated surfactant emplacement with EFR®.
- Remediation of dissolved phase VOCs utilizing our proprietary ISCO-EFR® process, which combines the elements of chemical oxidant emplacement with mobile EFR®.
- Remediation of viscous NAPLs and DNAPLs, such as coal tar, creosote, crude oil, and no. 6 fuel oil (bunker fuel) with our patented process SOLV-IT® utilizing EcoVac Formulated Solvents (EFS®) combined with the SURFAC® and EFR® processes. Tar site remediation project summary available.

Background
EcoVac Services is a remediation services firm formed in 1995 with a multidisciplinary staff and affiliated offices positioned in numerous states providing services nationwide.
We pioneered, patented provide expedited and cost-effective in-situ, mobile remedial solutions for groundwater sites impacted fuels, solvents and other highly viscous VOCs. We have applied our cost-efficient technologies with regulatory acceptance in over 41 states and PR.

Our Differentiators & Benefits
- Field Proven (over 15,000 events, 2300+ sites, 450+ clients)
- Effective (recovered over 2 million gallons of fuel & other VOCs)
- All NAPLs (DNAPLs like TCE and LNAPLs)
- Viscous NAPLs, too [creosote, coal tar]
- Rapid Remediation Closure (mos. vs. yrs., 2.5 acre plume in 33 days)
- Hydraulic Containment (prevents plume displacement)
- Highly competitive ($40/gal contaminant recovery for closure)
- Guaranteed Fixed Price Fuel Site Closures (avg $300K for 1/3-acre gas plume)
- Performance Based Remediation (PBR)/Pay for performance (PFP)
- Innovative (multiple patented technologies)
- Remedial Process Optimized (continuously by on-site operator)
- Customized Treatment Train & Amendments (in-house treatability lab)
- 100% Mobile (no fixed installation; $zero O&M)
- In-situ, 24-7 (beneath structures too, minimally disruptive)
- All Lithologies (clays to fractured bedrock)
- Deep (effective to 150 feet below ground surface)
- Scalable (remediate unlimited size plumes)
- Green Sustainable Remediation (70% less GHG than fixed system)
- Nationwide Regulatory Accepted (operated in 41 states since 1995)
- Small Business, NAICS Code 592910, Remediation Services
- Perfect Safety Record
