Permitting and Licensing
"Construction and demolition waste" means waste building materials, packaging, and rubble that results from construction, remodeling, repair, and demolition operations on houses, commercial or industrial buildings, and other structures. Construction and demolition waste includes trees and stumps which are more than 4 feet in length and 2 inches in diameter and which are removed from property during construction, maintenance, or repair.
Prohibited Materials

(i) Asbestos waste.
(ii) Household waste.
(iii) Corrugated containerboard.
(iv) Appliances.
(v) Drums and containers.
(vi) Any aboveground or underground tank and associated piping, except septic tanks.
(vii) Solid waste that results from any processing technique which renders individual waste components unrecognizable, such as pulverizing or shredding, unless the type and origin of such waste is known not to contain the wastes listed in paragraphs (i) to (vi) of this subdivision.
