

Luke Esch is the Administrator of the Solid and Hazardous Waste Division of the Wyoming Department of Environmental Quality (DEQ). Alongside a talented staff, Luke works to regulate the storage, treatment, and disposal of municipal solid waste, industrial waste, and hazardous waste throughout Wyoming. Luke also oversees environmental remediation projects and manages the Underground Storage Tank Program in order to address environmental impacts and return contaminated properties to productive use.

Luke has been in his current position for 5 years, and before joining DEQ, he was a Senior Assistant Attorney General in the Water and Natural Resources Division of the Wyoming Attorney General's Office. Before joining the State of Wyoming, Luke worked in private practice in Denver, Colorado at a regional law firm focusing on Superfund redevelopment projects. Luke received his Bachelors of Science degree in Agricultural Business from Colorado State University and his Juris Doctorate degree from the University of Wyoming. Luke currently serves on the Board of the Regional Institute of Health and Environmental Leadership and is a 2017 graduate of Leadership Wyoming.

Luke resides in Cheyenne with his wife and two children. His interests include reading, running, skiing, backpacking, hunting, fly-fishing, and western history.
