WY does not track individual site costs; only total project costs
TOTAL				\$1,428.41			\$1,159.34	\$214.33	\$444.62	\$3,013.47	8193	11	1232

^A Legislation diverts previously dedicated corporate Business Tax monies away from the UST Fund to fund other programs until such time as the balance of the UST Fund falls to the \$20 million level, at which time the annual dedication of these tax monies to the UST Fund will commence again.

^B Some sites in NM have exceeded \$1 million; however, their database does not allow them to find out the exact number for this question.

^C NYs fund is not an assurance or a financial responsibility fund, tank owners need private insurance or be self-insured.

^D Commercial Underground Storage Tank Program

^E Oil Heat Program

^F This figure reflects approximately 4700 claims waiting on the priority list to be funded and is based on an average cleanup cost of \$446,000. It does not include approximately 3600 claims currently active which are being funded.

Table 2 Definitions:

Fund Floor: The amount at which the program starts collecting taxes or fees.

Fund Ceiling: The amount at which the program stops collecting taxes or fees.

Outstanding Claims: Claims submitted (costs incurred) but not yet paid.
