¹ LA: State cannot determine a number of these column values for older sites on a release basis. Thus, the submitted data is listed on a site basis. A number of these sites have/had multiple releases.

² LA: These values represent the \$ difference between the Available Funds and total obligated funds. When this difference is above \$40M the state is required to stop collecting the fee until the difference reaches \$10M.

³ ME: If balance drops below \$6M, Fees are increased by 18¢/b of gas, and 6¢/b of other except crude, liquid asphalt and #6 oil.

⁴ MI 2017 Update: Data provided is for new Fund, created on December 30, 2014 and began accepting claims on January 1, 2016.
